Mission

The mission of *The Department of Education Policy and Social Analysis* is to engage in cutting-edge research and teaching to address critical problems affecting education and to contribute to informed analysis and action to promote educational achievement and equity.

EPSA starts out with a broad and inclusive view of the kinds of issues that its faculty and students might consider important to address. Explicitly, we are interested in both formal institutions of schooling and the political, bureaucratic, organizational, economic, and social factors that profoundly affect both schools and the broader educational enterprise. We are interested in the role that families, communities, and civil society can play in promoting education outside the school building walls. We have a special interest and capability in addressing issues from pre-K through higher education, in identifying ways in which laws and institutions affect education, and in understanding the growing role of private for-profit and nonprofit organizations in delivering education technologies and services. Issues relating to racial and socioeconomic equity are central to the research and teaching interests of many of our faculty members and students.

Students in this department will develop general skills of policy research and analysis, along with general perspectives on policy development and implementation that are widely applicable to other domains of public policy. We do hope to link education policy with other social issues and domains such as health policy. Social analysis grounded in disciplinary studies in sociology, political science, and economics should inform applied policy studies and vice versa.

Program Description

Economics is a powerful research and policy tool for scholars and educational practitioners who wish to develop a better understanding of educational institutions and decisions. The program in Economics and Education at Teachers College is a dynamic program that has maintained its position of leadership in this rapidly growing field. The goal of the program is to train students to apply economic concepts and tools to address both domestic and international issues in pre-kindergarten through post-secondary education, including:

- How does educational attainment influence individual productivity and income, as well as broader economic growth?
- How do educational inputs such as teacher training, class size, or technology impact student achievement?
- What policies and practices are most effective in improving student outcomes while reducing gender, socioeconomic, and racial/ethnic gaps in those outcomes?
- How can we measure the return on educational investments?
- Which educational technologies are cost-effective?
- How can college financial aid programs be designed to maximize their impact?

Our M.A. and Ed.M. graduates have gone on to work at foundations, education advocacy and service organizations, and government agencies, as well as to pursue doctoral study in related fields. Our Ph.D. graduates have gone on to research, leadership, and academic teaching positions in a range of settings. Recent Ph.D. graduates are currently employed as tenure-track faculty members at both domestic and international postsecondary institutions, as research associates at leading policy research organizations, and as institutional researchers for large urban school districts and colleges and universities.

Students in our M.A., Ed.M. and Ph.D. programs take courses in core areas including applied microeconomics, the economics of education, education and economic development, econometrics, statistical analysis, and benefit-cost analysis. Beyond required coursework, students in each degree program can choose from a range of elective courses to individualize their experience and satisfy their unique interests and career objectives. With the help of an academic advisor, students select courses from those offered within the program of economics and education and supplement these with courses outside the department, including courses offered in other schools of Columbia University.

As one of four programs in the Education Policy and Social Analysis (EPSA) department at Teachers College, the Economics and Education program is a discipline-based program within a multidisciplinary environment. Students and faculty across the four programs interact around shared research and policy interests, and students

in the Economics and Education program are encouraged to take advantage of the broader resources in EPSA. These broader resources include not just relevant course offerings but also policy events, seminars, student-led “pop-up” conversations on current topics, job networking events, and social gatherings.

Degree Summary

Economics and Education (ECON)

- Master of Arts (M.A.)
- Master of Education (Ed.M.)
- Doctor of Philosophy (Ph.D.)

(Education Policy option available for degree levels above)

For a complete listing of degree requirements, please continue on to this program's "Degrees" section in this document

Degree Requirements

Master of Arts

Master of Arts

The objective of the 33-point M.A. Program in Economics and Education is to equip education professionals and policy-makers with the skills required to interpret and synthesize education-related research, to design and implement effective educational policy, and to assess the consequences of education policy, both domestically and in international settings.

The program begins in the Fall term and can be completed within one calendar year with enrollment during the summer and careful course planning, although many students choose to take longer (for example, by taking the summer to work in a related area and returning to complete coursework in the subsequent fall term). Some students are able to work full-time while pursuing their degree, although this requires a flexible schedule since many courses are only held in the afternoon.

The curriculum of the program aims to build students' technical competence in the basic tools of educational management and policy making; provide the academic and professional environment for students to apply these skills; and educate students about the global educational landscape, including current thinking on educational reform and the financing of education. Please click on the course planning worksheet link below for specific course offerings and requirements.

In addition to completing required coursework, all M.A. students must complete an Integrative Project (I.P.) on a topic of their choice, under the guidance of a faculty advisor. The I.P. may take the form of original research and data analysis on a topic of interest or may entail a review and synthesis of the theory and evidence around a specific education-policy question. The goal of the I.P. is for the student to apply concepts and methodologies from the Economics and Education curriculum to a real-world issue in education.

All applications to enter the program are evaluated on an individual and holistic basis. However, the curriculum of the program assumes that students have some previous coursework (at least at the undergraduate level) in economics and basic statistics, possess intellectual maturity, and demonstrate an interest in education policy and practice. Compelling applications for admission demonstrate the applicant's capacity for success and also clearly explain how the Economics and Education curriculum fits with the applicant's past experiences and future goals.

Master of Education (Ed.M., 60 points)

Master of Education

This 60-point program is intended for individuals who already have a graduate degree in a related field, who would like to build upon that foundation with additional training in Economics and Education. Required coursework mirrors the requirements for the M.A. degree but gives students room to take more advanced courses in the economics and education concentration and related programs (including the other programs in EPSA as well as relevant courses in other departments/programs).

All applications to enter the program are evaluated on an individual and holistic basis. However, the

curriculum of the program assumes that students have some previous coursework (at least at the undergraduate level) in economics and basic statistics, possess intellectual maturity, and demonstrate an interest in education policy and practice. Compelling applications for admission demonstrate the applicant's capacity for success and also clearly explain how the Economics and Education curriculum fits with the applicant's past experiences and future goals.

Doctor of Philosophy (Ph.D.,75 points)

Doctor of Philosophy

This 75-point program is intended for individuals who want to acquire advanced training in the theory, methods, and practices in the economics of education. It is a highly selective program to prepare individuals for leadership roles in teaching, research, or administrative settings.

The coursework for this program consists of three parts: core courses, courses in research methods, and courses in a specialized area of study, such as higher education, early childhood education, field experimentation, or a regional focus. Students work on their dissertation under the guidance of faculty advisors within the program; additional members of the dissertation committee may be drawn from other TC departments, and at least one committee member must be from Columbia's Graduate School of Arts and Sciences. All degrees are conferred by Columbia University.

Admission to the Ph.D. program is highly selective. All applications to enter the program are evaluated on an individual and holistic basis. However, the curriculum of the program assumes that students have some previous coursework in economics and statistics, possess intellectual maturity, and demonstrate an interest in education policy and practice. Compelling applications for admission demonstrate the applicant's capacity for success and also clearly explain how the Economics and Education curriculum fits with the applicant's past experiences and future goals.

Application Information

The GRE General Test is required for the Ph.D. program. A strong background in economics is also required. The Ph.D. program prefers applicants with a solid background in mathematics.

Applications are reviewed on an ongoing basis and will be reviewed throughout the year. Preference in scholarship awards will be for those applicants who meet the early application deadline.

Course List

EDPE 4050 ECONOMICS OF EDUCATION

Teaches the basic economic concepts and methods to be used for further study and analysis of educational finance, education and inequality, education, and economic growth, the impact of educational policies on education; and outcomes, school reform, and school choice.

EDPE 4051 EDUCATION AND ECONOMIC DEVELOPMENT

This course examines the links between education and various aspects of economic development. Topics include the impact of human capital accumulation on economic growth, the educational attainment of men and women in developing countries, the effects of schooling on labor force participation, wages and fertilities, and the issues of school finance and educational policy in the Third World.

EDPE 4055 RESOURCE ALLOCATION IN EDUCATION

This course reviews the literature on school effectiveness with respect to the allocation of resources. It addresses and analyzes education production functions and cost-effectiveness analysis in educational decision-making.

EDPE 4056 MICROECONOMIC THEORY APPLICATIONS EDUCATION

A survey of intermediate microeconomic theory combined with applications of relevance to the economics of education. At the theory level, the course covers utility maximization, income and substitution effects, labor supply, the analytics of market equilibrium, consumer surplus, cost minimization, production and cost functions, the determinants of the demand for factors of production, labor demand and the demand for skilled labor, market imperfections, monopoly pricing, monopolistic competition, externalities and public goods. Applications are included for each of these topics in the area of education.

EDPE 4058 ECONOMICS OF HIGHER EDUCATION

This course uses theoretical and empirical economic analysis to analyze the behavior of higher education students and institutions and to study private and public policy related to post-secondary education.

EDPE 4097 INTERNATIONAL AND COMPARATIVE STUDIES IN EDUCATIONAL FINANCE

Educational finance in international settings. Financing role of international development agencies. International and comparative studies in educational finance.

EDPE 4155 EVALUATING EDUCATIONAL PRIVATIZATION AND SCHOOL CHOICE

Educational privatization and school choice raise fundamental questions about the purposes of education, the nature of community, and the boundaries of the market. Through close reading of court decisions and legislative acts as well as works in economics, sociology, history, political science, pedagogy, and investigative journalism, students in this course address these questions. Requirements include four essays and one research paper.

EDPE 5430 INTERNSHIP IN ECONOMICS AND EDUCATION

Permission of advisor required. Supervised training in diverse settings designed to gain work experience and/or research skills related to economics of education.

EDPE 5550 WORKSHOP IN ECONOMICS AND EDUCATION

For doctoral students and others with research projects or potential research projects in the field. Participation required for doctoral students writing their dissertation. Students who are beginning to think about their dissertation topic or working on proposals are also encouraged to participate. Faculty members may also be invited from within or outside the department to present their work.

EDPE 5650 READINGS IN THE ECONOMICS OF EDUCATION

Selected readings in the economics of education. Recommended for students with background in economics or a related discipline. As the selection of readings differs in different semesters, a student may register for more than one semester of ITSF 5650.

EDPE 6000 ADVANCED ANALYSIS IN ECONOMICS OF EDUCATION

The course focuses on the evaluation of state-of-the art research papers in the economics of education. The purpose is to provide critical readings and reviews of articles and papers across many different methods.

EDPE 6023 QUANTITATIVE METHODS FOR CAUSAL INFERENCE IN EDUCATION RESEARCH

This doctoral course covers the design, implementation, and interpretation of econometric methods used for evaluating causal relationships in education research, reading and discussing applied methodological texts as well as journal articles using advanced causal methods. The course covers randomized experiments, natural experiments, differences-in-differences, instrumental variables, regression discontinuity, and propensity score matching.

EDPE 6025 CONDUCTING FIELD EXPERIMENTS: DESIGN AND IMPLEMENTATION

The purpose of this course is to introduce students familiar with causal methods to the design and implementation of field experiments in economics and education. In the first part of the course, students will study experimental design. In the second part of the course, students will focus on the practical aspects of running an experiment. The course assignments will lead up to a completed proposal outlining the theory, design, and implementation of a field experiment. In addition, students will complete an IRB application for human-subjects approval and present their proposals.

EDPE 6050 EDUCATION AND ECONOMIC DEVELOPMENT: ADVANCED TOPICS

This course provides an advanced discussion of the links between education and economic development, including both theoretical frameworks and empirical models.

EDPE 6052 LABOR ECONOMICS

This course covers important concepts in labor economics, with a focus on how those concepts can be applied and tested in practice. The course will provide an overview of labor market topics such as the returns to education and training, non-monetary forms of compensation, models of labor migration, and models of imperfect or asymmetric information about skills. For each topic, we will examine influential papers and the empirical methods they use. The course is intended for doctoral students and will count towards the Labor Economics requirement for the Economics of Education Ph.D. program.

EDPE 6151 ADVANCED MICROECONOMICS WITH APPLICATIONS TO EDUCATION

A doctoral-level survey of microeconomic theory with applications of relevance to the economics of education. Includes the theory of the firm and its implications regarding factor demands, educational production functions, and the demand for education. Consumer theory and the theory of labor supply. Human capital externalities. Intertemporal decision-making. Public finance and local public goods.

EDPE 6590 DOCTORAL RESEARCH SEMINAR ON ECONOMICS OF EDUCATION

Through presentation and discussion of their research studies, students learn research skills and improve their understanding of various issues in the research process from the initial stage to dissemination.

EDPE 8900 DISSERTATION ADVISEMENT IN ECONOMICS AND EDUCATION

Individual advisement on doctoral dissertations. Fee to equal 3 points at current tuition rate for each term. For requirements, see section in catalog on Continuous Registration for Ed.D./ Ph.D. degrees.

Education Policy

Fax: (212) 678-3589

Email: kolb@tc.columbia.edu

Director: Professor Kevin Dougherty

Program Description

The course of study in Education Policy prepares students for such positions as policy analyst, policy advocate, and education researcher. It develops students' skills in the political, economic, social, and legal analysis of education policy issues. Students are required to explore one policy topic in depth as part of a field experience. Coursework includes a research methods sequence suitable to the requirements of education policy professionals and experience writing policy briefs for a variety of audiences. M.A. students select a substantive specialization tied to students' professional and academic goals in four areas: Early Childhood Education Policy, K-12 Education Reform Policy, Higher Education Policy, and Law and Education Policy. Our main master's degree is the M.A. The M.A. is often the first post-baccalaureate degree, and it is also the master's degree that is most widely recognized in the Education Policy field. The overwhelming majority of our non-doctoral students enter this degree program. However, we offer the Ed.M. for students who have already acquired an M.A. with at least some coursework with education policy content. The Ed.M. degree further develops students' knowledge and skills by drawing on interdisciplinary policy studies; the social science disciplines of economics, law, politics, and sociology; and the substantive content of policies and practice in early childhood education, K-12 education, higher education, and law and education. Doctoral students complete the master's-level core courses, a two-part advancement to candidacy process, and a research dissertation. Coursework beyond the core is chosen individually in conjunction with a faculty advisor. Most coursework is offered during the school year. For more information, contact Gosia Kolb at kolb@tc.columbia.edu (<mailto:kolb@tc.columbia.edu>). For individual degree program planners and special applications go to <http://www.tc.columbia.edu/epsa/edpolicy/> (<http://www.tc.columbia.edu/epsa/edpolicy/>).

Degree Summary

Education Policy (EPOL)

- Master of Arts (M.A.)
- Master of Education (Ed.M.)
- Doctor of Philosophy (Ph.D.)

For a complete listing of degree requirements, please continue on to this program's "Degrees" section in this document

Degree Requirements

M.A. in Education Policy (33 points)

The 33-point degree aims to build a cadre of education policy experts whose deep grounding in a range of educational policy issues is matched by their understanding of the policy process and the tools of policy analysis. The Masters of Arts (M.A.) degree offered by the Education Policy Program is focused on the preparation of policy analysts, policy advocates, and education researchers. The program develops students' knowledge and skills by drawing on interdisciplinary policy studies, the social science disciplines of economics, law, politics, and sociology, and substantive content on policies and practice in early childhood education, K-12 education, higher education, and law and education.

Ed.M. in Education Policy (60 points)

The 60-point, newly updated Ed.M. degree is intended for educators and non-educators seeking careers in education policy in either the private or the public sector. We offer the Ed.M. for students who have already acquired an M.A. with at least some coursework with education policy content. The program of study builds on the required M.A. course sequence and draws on interdisciplinary policy studies, the social science disciplines of economics, law, politics, and sociology and substantive content of policies and practice in early childhood, K-12, higher education and law and education, with additional work in a policy area relevant to the student's interests. Up to 30 points of eligible coursework from another graduate institution or program may be applied to the Ed.M. degree.

Ed.D. in Leadership, Policy, and Politics (90 points)

(not accepting applications for 2016-2017)

Ph.D. in Education Policy (75 points)

In the rapidly changing and increasingly complex world of education, a crucial need exists for better knowledge about how schools and higher education institutions can be organized and led most effectively. A deeper understanding of how policies, politics, and the law can advance the twin goals of excellence and equity, how schools and higher education institutions can best acquire and use resources, how leaders can support teacher development and student achievement, and how education policymakers and leaders can make best use of information from student assessments, program evaluations, and analytical research. This knowledge should be based on thoughtful reasoning and solid evidence; it should be theoretical in scope but also have clear implications for education practice.

The school-year Ph.D. degree in Education Policy responds to these knowledge demands by focusing on the scholarly study of education leadership and policy. This degree program provides the opportunity to develop expertise in many interconnected subject areas, as preparation for careers in academic research and teaching or in applied policy development and research. Graduates of the Ph.D. program are able to build new knowledge, teach new leaders, and craft new policies.

In the Education Policy program, students will consider how laws and policies can impact the reform of educational systems and how they support or impede improvements in curriculum, teaching, and student achievement. Furthermore, students will analyze the political, social, economic, and legal dynamics that affect policy development and implementation.

The program may be completed in 75 points, of which up to 30 acceptable credits may be transferred from another graduate institution. In addition to study in education policy, the program requires extensive preparation in quantitative and qualitative research methods and in one of the cognate social sciences offered by Columbia University, for example, Political Science, Sociology, or Economics. For information, please contact Gosia Kolb at kolb@tc.columbia.edu (<mailto:kolb@tc.columbia.edu>).

Non-Degree Programs

Non-Degree Programs

In addition to the degree programs previously described, the Department of Education Policy and Social Analysis (EPSA) offers courses and professional development opportunities to current students, alumni, and practicing professionals:

School Law Institute

One of the most popular offerings at Teachers College, this nationally known, one-week program, held this year at Columbia Law School during a week of July, is available for 3 graduate credits or on a non-credit basis. The School Law Institute offers public K-12 educators (board members, school and district leaders, teachers, guidance counselors, special educators, ELL staff, etc.), policy analysts, policymakers, union reps, advocates and others tools to address provocative current issues of law, policy, research, and practice. The Institute's eminent national faculty members explore such issues as charter schools; high-stakes testing; cyberbullying; fiscal equity; safety and order (harassment, child abuse, tort liability, search and seizure); issues of race and poverty in education; the rights and needs of students with disabilities and English-language learners; and promoting diversity in public schools; and the school-to-prison pipeline. For more information, please visit www.tc.edu/schoollaw (<http://www.tc.edu/schoollaw>) or contact Professor Jay Heubert at jay.heubert@columbia.edu (<mailto:jay.heubert@columbia.edu>).

Concurrent Programs in Education and Law

Columbia University currently offers no regular programs through which a student may concurrently or jointly earn an education degree at TC and a law degree at Columbia Law School. The Department of Education Policy and Social Analysis (EPSA), however, offers a specialization in education law and policy and several courses are offered both at TC and Columbia Law School. For information, contact Professor Jay Heubert at jay.heubert@columbia.edu (<mailto:jay.heubert@columbia.edu>).

Application Information

You will be able to apply to our programs via the Admissions Office website (<http://www.tc.edu/admissions/index.htm>).

Financial Aid

See the Office of Financial Aid (<http://www.tc.columbia.edu/financialaid/>) for more information.

Course List

EDPA 4002 DATA ANALYSIS FOR POLICY AND DECISION MAKING I

This is an introductory course in quantitative research methods that focus on non-experimental designs and the analysis of large-scale longitudinal datasets, especially those related to education policy. Students become familiar with the logic of inferential statistics and the application of basic analytic techniques. No prior knowledge of statistics or quantitative methods is required.

EDPA 4013 EDUCATION POLICY AND THE MANAGEMENT OF INSTRUCTION

This course explores current ideas about desirable goals for student learning and development in K-12 education and will use a backward-mapping approach to consider how curriculum and instruction; classroom and school environments; organizational strategies; leadership practices; and local, state, and federal education policies can facilitate progress towards those goals. The course is intended to help students develop and articulate ambitious theories of action for school improvement and the management of instruction that can be useful in their work as education policy makers or analysts, academic researchers, and practitioners.

EDPA 4017 TOPICS IN HIGHER EDUCATION LAW

This course, designed for policy students, higher-education students, and practicing administrators, draws on multi-disciplinary sources to explore legal and law-related issues that arise in public and private postsecondary institutions in the U.S. Broad topics include free speech and academic freedom; safety and order; and the role of law in promoting educational equity. Specific topics include legal attributes of public and private postsecondary institutions; faculty free speech, academic freedom, and tenure; student rights of free speech and association; the catalog as contract; safety and order: institutional authority to regulate on- and off-campus student and staff behavior, tort liability (for suicide, hazing, drug and alcohol abuse), harassment and cyber-bullying, search and seizure, and due process; promoting educational equality: discrimination past and present, access to higher education, HBCUs and single-sex education, using race/ethnicity and gender to promote diversity, serving English-language learners and immigrant students, the needs and rights of individuals with disabilities.

EDPA 4025 HIGHER EDUCATION POLICY

An introduction to the higher education policy making process. Main topics: the general nature of policy making with examples and readings from higher education; key actors, institutional structures and processes in the federal, state, and local higher education policy arenas; and the origins and consequences of key policy enactments affecting college access and success, instruction, performance accountability, and student diversity.

EDPA 4033 COMPREHENSIVE EDUCATIONAL OPPORTUNITY

The course will provide students an overview of the concept of comprehensive educational opportunity and will analyze the feasibility of its implementation. Topics will include the impact of poverty on children's opportunities to succeed in school, the role of early childhood learning, out-of-school time, health factors, and family and community support on school success; the history of past attempts to overcome socioeconomic disadvantages; and the economic, political, administrative, educational, and legal issues that must be considered to advance this concept on a large scale.

EDPA 4046 SCHOOL FINANCE: POLICY AND PRACTICE

Examination of the judicial and legislative involvement in school finance reform, taxation, and the equity and efficiency of local, state, and federal finance policies and systems.

EDPA 4047 POLITICS AND PUBLIC POLICY

What are the various stages of the policy process, from the recognition of certain problems as public issues to the adoption of policies to address those problems and the implementation and evaluation of those policies? This course touches on all these stages but focuses on policy origins: problem recognition and agenda setting, consideration of possible policy solutions, and policy adoption. The course examines policy origins through the lenses of various theoretical perspectives drawn from political science, sociology, economics, and law, including policy entrepreneurship theory, the advocacy coalition framework, punctuated equilibrium theory, diffusion theory, institutional theory, and the theory of the state. These perspectives are grounded by looking at the origins of particular policies concerning early childhood, K-12, and higher education.

EDPA 4048 EDUCATION POLICY ANALYSIS AND IMPLEMENTATION

Explores the issues of policy (or reform) implementation in schools and districts by focusing on the political reactions and organizational buffers to policy change and the ways that policies become adapted and changed to fit locally defined problems. Distinctions between implementation issues in bottom-up and top-down policy change are explored.

EDPA 4050 THE LOGIC AND DESIGN OF RESEARCH IN EDUCATION POLICY AND SOCIAL ANALYSIS

An introduction to understanding, designing, and conducting empirical research for education policy and the social sciences. Students explore philosophical foundations of research, the relationship between theory and evidence in research, and the mechanics of designing and conducting research, including strategies for sampling, data collection, and analysis. Quantitative, qualitative, and mixed methods approaches to research are addressed.

EDPA 4086 LAW AND EDUCATION: REGULATION, RELIGION, FREE SPEECH, AND SAFETY

This survey course focuses on legal issues that arise in public and private schools. Topics include governmental regulation of public and private schools; church-state issues (prayer, vouchers, evolution); free-speech rights of students, teachers, and extracurricular groups; who controls the curriculum; the school's authority to make and enforce rules governing student and staff conduct on and off school grounds; the duty to protect the safety of students and others; child abuse; search and seizure; and due process. The course draws on the multidisciplinary perspectives of law, policy, research, and educational practice.

EDPA 4899 FEDERAL POLICY INSTITUTE

The purpose of the Federal Policy Institute is to examine three themes: the enduring values of American education, contemporary issues in national school reform efforts, and the role of the federal government. During a week-long program in Washington, students will have the opportunity to identify a policy issue of personal interest and to explore that issue with the nation's senior policymakers. Introductory and concluding sessions meet at the College.

EDPA 5002 DATA ANALYSIS FOR POLICY AND DECISION MAKING II

This is an intermediate-level course in non-experimental quantitative research methods, especially those related to education policy. The class examines such topics as factor analysis, modeling non-linear relationships and interactions using regression, analyses of change, logistic and multinomial logistic regression, missing data analyses, and fixed effects models. Prerequisite: students should have completed at least one graduate-level course in applied statistics or data analysis (e.g., EDPA 4002).

EDPA 5016 EDUCATIONAL EQUALITY: ROLE OF LAW

Historically, many barriers to educational equality and many important efforts to overcome such barriers have involved the law. This course examines major efforts to use law to attack discrimination and to ensure high-quality education for all children. Topics include: addressing racial segregation and concentrated poverty; the standards movement and high-stakes testing; the right to an adequate education; sex and gender discrimination; harassment; services for English-language learners; special education; and affirmative action. The course draws on the multidisciplinary perspectives of law, policy, research, and educational practice.

EDPA 5023 POLICYMAKING FOR EFFECTIVE HIGH SCHOOL TO COLLEGE TRANSITION

The course examines policymaking efforts by the federal and state governments to facilitate the movement of students from high school to college and their effective preparation to meet college requirements. The policies reviewed include student financial aid, the TRIO and GEAR UP programs, state common core curriculum standards, accelerated learning programs, and state longitudinal data systems. The course examines the content of these policies, their political origins and implementation, and their impacts. The aim is to help students develop a broad and deep understanding of the main directions of – but also limitations to – national and state policymaking with respect to high school to college transition.

EDPA 5030 SOCIAL SCIENCE, EDUCATION POLICY, AND THE COURTS

For the past century there have been debates over the proper role of social-science evidence in judicial proceedings, especially in the context of education reform litigation. This interdisciplinary course will start with *Brown v. Board of Education* and trace the evolution of the use of social science by courts, focusing on decisions in such vital areas of education policy as school desegregation, student testing, special education, language services for English-language learners, education finance, and affirmative action. It explores how social science evidence has influenced judicial decision making; how judicial decision making has influenced the directions of social science research; how courts have influenced the development of educational policy in statutes and regulations; how courts, legislatures, and administrative agencies engage in social science fact finding; and how courts use presumptions, burdens of proof, and other legal mechanisms that may reduce their need to consider social science evidence.

EDPA 5086 THE ROLE OF COURTS IN EDUCATION REFORM

Beginning with the school desegregation decrees issued by the federal courts in the wake of *Brown v. Board of Education*, the federal and state courts have been called upon to consider a range of asserted educational rights and to oversee far-reaching institutional reforms that bear little relationship to traditional judicial remedies. This course will examine the legal and political justifications for the courts' role in making educational policy and reforming public institutions, as well as the courts' capacity to undertake these functions. The course will give particular attention to school desegregation and special education cases in the federal courts and education adequacy litigations in the state courts, including the recent decisions of the New York State Court of Appeals in *CFE v. State of New York*.

EDPA 5515 MASTER'S SEMINAR IN EDUCATION POLICY.

(Restricted for Education Policy program students.) Policy analysis requires its practitioners to evaluate available information; to weigh the possible impacts of alternative policies; to understand political, legal, and/or economic ramifications; and to produce plans for action that are organizationally feasible and publicly valuable. This seminar is designed to give students the opportunity to demonstrate a theoretical and analytical understanding of the practical problems inherent in conducting policy research.

EDPA 5645 CRAFT OF POLICY ANALYSIS

Conceptualization and identification of social and educational problems that can be subjected to policy interventions. Design and evaluation of alternative policy choices. Effective strategies for presenting policy analysis to multiple audiences.

EDPA 5880 SCHOOL LAW INSTITUTE

Explore important, timely issues of education law, including issues of race and poverty in education; serving English-language learners; the legal rights of students with disabilities; the right to an adequate education; and issues of safety and order (harassment, child abuse, tort liability, search and seizure, and cyber-bullying). For more information, visit SLI website at <http://www.tc.edu/schoollaw>, and/or contact Professor Jay Heubert at heubert@tc.edu.

EDPA 6013 EARLY CHILDHOOD DEVELOPMENT AND EDUCATION: INTEGRATING RESEARCH AND POLICY PERSPECTIVES

First section of a two-semester course with students participating in both semesters. Focuses on diverse perspectives framing the field and in so doing will present the most critical issues that require policy attention. Building on this background, the second semester will address steps that have been taken to ameliorate these issues, focusing heavily on research. By design, then, the first semester will present an array of issues and perspectives in order to provide the conceptual foundation for an exploration of salient strategies to address them in the second semester. By looking at early childhood development and learning from this stance, students will not only be exposed to diverse ideas about the content but will also be armed to address pressing challenges the field faces with them all in mind. (The second semester course is HUDK 6013, taught by Professor Jeanne Brooks-Gunn in the Department of Human Development.)

EDPA 6027 INTERNATIONAL PERSPECTIVES ON EARLY CHILDHOOD POLICY

This course looks at early childhood education policy through an international lens, addressing often neglected—but highly salient—policy questions, including: What have been the real effects of the *Millennium Development Goals and the Education for All* goals on education systems in general and on early childhood education in particular? How have poverty, gender, and the needs of marginalized populations/cultures shaped early childhood policy in diverse countries? What are the unique policy properties that must be considered when developing policies for young children and their families? To what extent do the policy contexts of nations differ, and how do these differences impact early childhood policies directly? To what extent can lessons learned in one context be faithfully transported across national boundaries? Based on readings and discussions of these issues, students will demonstrate their understanding of the role of policy in shaping early childhood education in a given country through the final paper, a situation analysis. Building on sequenced assignments, this paper will provide the platform for students to use policy tools and make recommendations for concrete early childhood policy improvements.

EDPA 6030 INSTITUTIONAL THEORY: SOCIOLOGICAL PERSPECTIVES ON INSTITUTIONAL CHANGE IN EDUCATION

An introduction to organizational theory as it applies to a variety of institutions with particular attention to the potential of educational activities as a force in formal organizations.

EDPA 6542 EDUCATION POLICY FOUNDATIONS SEMINAR

(Required for all Education Policy program students. Restricted for Education Policy program students.) Over the past century, educators have experienced wave after wave of reforms intended to address the latest education “crisis”. This perpetual cycle of school improvement stems in part from the competing and often contradictory demands placed upon public education. In response, school improvement efforts have alternated between a focus on equity and excellence, progressive and traditional pedagogical approaches, centralized and decentralized governance, and private rights versus public needs. Students in this course will explore the social and political roots of these pendulum swings and examine the historical forces that fuel America’s desire for continual school reform. Issues of race, religion, class, and language—which are intimately tied to these tensions—are woven into the readings, discussions, and course-work.

EDPA 6900 DIRECTED RESEARCH AND STUDY IN EDUCATION POLICY

For students wishing to pursue independent study or original research as they prepare for their doctoral certification examination and/or dissertation proposal. Permission required from individual faculty.

EDPA 8900 DISSERTATION ADVISEMENT IN EDUCATION POLICY

Individual advisement on the doctoral dissertation. Requires ongoing consultation between the student and dissertation sponsor. The fee equals three points at the current tuition rate for each term. Permission required from individual faculty.

Director: Professor Jeffrey Henig

Program Description

The Politics and Education program serves students who wish to study the ways in which governance institutions, political ideologies, and competing interests (both within and outside of the education community) influence the content, form, and functioning of schooling. Schools represent a powerful instrument for shaping the development of future generations of citizens and workers as well as an important source of jobs and investment in many communities. How do societies handle conflicting visions of what schools should and should not be doing, and what are the specific changes in political and governance processes that might facilitate better decision-making and policy implementation? Students will study in depth the ways power and politics affect and are affected by such issues as reform and innovation, centralization and decentralization within federal systems of governance, privatization and school choice, race and ethnicity, poverty and inequality, professionalization and bureaucratization, and testing and accountability.

Faculty contributing to the program are drawn from throughout the College and possess research and teaching interests in urban, suburban, state, and federal levels of school governance, as well as in cross-national and other comparative settings. The balance of control and cooperation, coalition building and competition, resistance and bargaining in each of these settings, as well as the central roles of power and agency in the political science discipline, inform the perspectives of faculty and students in this program.

In addition to courses listed within the Politics and Education program, the Department of Education Policy and Social Analysis, Teachers College and the Departments of Political Science and School of International and Public Affairs at Columbia University are all resources available to students as they develop their programs of study. Depending on their interests, students with a master's degree in Politics and Education conduct research in think-tanks and education policy shops; teach politics, history, or civics in secondary school; or hold public office or other leadership positions in educational settings as diverse as private and public schools, corporations, citizen groups, and foundations. Doctoral graduates in Politics and Education teach in colleges and universities, conduct research in think-tanks and research centers, and advise public officials. Ph.D. students are expected to master the discipline of political science in addition to the specialty of politics in education. For profiles of some recent alumni please visit our website at <http://www.tc.columbia.edu/epsa/politics/>

Degree Summary

Politics and Education (POLC)

- Master of Arts (M.A.)
- Master of Education (Ed.M.)
- Doctor of Education (Ed.D.)--not accepting applications for AY 2016-2017
- Doctor of Philosophy (Ph.D.)

For a complete listing of degree requirements, please continue on to this program's "Degrees" section in this document

Degree Requirements

Master of Arts (M.A., 33 points) and Master of Education (Ed.M., 60 points)

Students follow a core program of coursework and other learning experiences developed by the Politics faculty and individually adjusted in consultation with an assigned advisor. Up to 30 points of transfer credit are accepted towards an Ed.M. but only upon approval of an assigned faculty advisor after the student is admitted. Under College policy, no transfer credits are accepted for M.A. students.

For further information on specific program requirements, consult the program website at www.tc.edu/epsa/politics (<http://www.tc.edu/epsa/politics>).

Newly admitted students are asked to participate in a set of core political science and general foundation courses in education. Each student will also complete methodological requirements including but not limited to statistics, qualitative, and quantitative methods. After completing the core, each student is expected to focus his or her studies on a set of political debates in education or a particular political arena.

Doctor of Education (Ed.D., 90 points)

(not accepting applications for academic year 2016-2017)

Doctor of Philosophy (Ph.D., 75 points)

Students are asked to participate in a set of core political science and general foundation courses in education policy. These are selected with the approval of the faculty advisor in order to best meet each individual student interests and professional goals. Students may be required to take as many as 12 points of coursework at Columbia University in the Political Science Department.

Ph.D. students must demonstrate command of two research tools, selected from the following list: 1) a reading knowledge of a foreign language, 2) a reading knowledge of a second foreign language, 3) an approved two-course sequence in quantitative analysis,* 4) an approved two-course sequence in formal modeling or advanced multivariate statistics, 5) a comparable level of proficiency in a research tool approved by the college.

For further information on specific program requirements consult the program website at www.tc.edu/epsa/Politics.

* *Satisfied by meeting 6-point statistics requirement.*

Application Information

All applicants are required to submit GRE General Test scores. Doctoral applications must include three letters of reference, which focus on academic skills and potential. Doctoral applications received after the early deadline as advertised by the College will be considered for admission, but not scholarship aid, on a space-available basis. Master's applications that are complete and that have been received by the Admissions Office by the early deadline will be considered for both admission and any available scholarship aid. All complete applications received by the final deadline for the master's program will be considered for admission only.

Financial Aid

See the Office of Financial Aid (<http://www.tc.columbia.edu/financialaid/>) for more information.

Course List

EDPP 4040 AMERICAN POLITICS AND EDUCATION

Introduction to the basic analytical categories of political science as they apply to the politics of education, including the influence of federal, state, and local governments in school policy-making, decentralization, school finance, and desegregation.

EDPP 4042 COMPARATIVE POLITICS AND EDUCATION

The politics of education in settings outside the U.S. topics, including the role of education in political development, political socialization, and student politics.

EDPP 5041 POLITICS OF CENTRALIZATION AND DECENTRALIZATION

Analyzes the political underpinnings and consequences of centralization versus decentralization at various levels of governance with special but not exclusive attention to educational decision-making.

EDPP 5042 URBAN POLITICS AND EDUCATION

Politics in the nation's largest cities with a particular focus on educational politics and policy.

EDPP 5045 RACE, ETHNICITY, AND U.S. EDUCATIONAL POLICY

Examination of the impact of race and ethnicity on the formation and implementation of policies such as desegregation, affirmative action, bilingual education, and choice.

EDPP 5640 COLLOQUIUM ON THE POLITICS OF EDUCATION

Continuous participation required of doctoral students until their dissertation proposals are accepted. A critical review of important works in politics and education, discussions with invited guests, presentations of work in progress.

Advanced

EDPP 5642 COLLOQUIUM IN POLITICAL ECONOMY AND EDUCATION

Political and economic perspectives on contemporary problems of public policy and education.

EDPP 6540 SEMINAR IN POLITICS OF EDUCATION

Permission required. Selected topics in the politics of education.

EDPP 6900 RESEARCH AND INDEPENDENT STUDY

Permission required.

EDPP 6940 STUDIES IN POLITICS AND EDUCATION

Permission required. Independent study.

EDPP 7503 DISSERTATION SEMINAR

Permission required. Development of doctoral dissertation proposals.

EDPP 8900 DISSERTATION ADVISEMENT

Individual advisement on doctoral dissertations. Fee to equal 3 points at current tuition rate for each term. For requirements, see section in catalog on Continuous Registration for Ed.D./Ph.D. degrees.

Program Description

The sociological study of education began at Teachers College in the first decade of the twentieth century. Sociology was established as the first social science discipline providing a basic framework for the study of education, complementing the long-established reliance on psychology. Over this period, the Sociology and Education Program has applied research findings to education and has examined basic issues in education from a sociological perspective. Although the program's theory and research have emphasized schools and colleges, attention also has been given to education in other contexts.

The faculty for Sociology and Education includes sociologists from other programs at the College and the Department of Sociology of the Graduate School of Arts and Sciences. Faculty strengths are in education and social stratification; the social organization and design of schools, classrooms, and other learning environments; urban education; school desegregation and school choice; education and the life course; and the social analysis of education policy. The program provides training and hands-on experience in evaluation methods and both quantitative and qualitative research methods.

The curriculum of the Sociology and Education program emphasizes issues in urban education, including the social organization of urban schools and school systems, and the success or failure of urban schools in meeting the educational needs of the diverse populations they serve. The program faculty are actively engaged in the analysis and evaluation of educational policies and programs designed to serve educationally disadvantaged populations.

The program in Sociology and Education also offers a Policy Studies Concentration for students in the M.A. and Ed.M. programs. For more information on this concentration, which is open to students throughout Teachers College, please contact Professor Aaron Pallas.

Degree Programs

The graduate program in Sociology and Education offers four degree programs: the M.A., the Ed.M., the Ed.D., and the Ph.D. Each program is designed to meet the needs of students with a particular combination of prior experience and career objectives. The M.A., Ed.M., and Ed.D. programs may be completed on a part-time basis with classes offered in the evening hours. The Ph.D. program requires full-time study. Although students from all of the degree programs in sociology and education are prepared to assume positions in educational institutions, the program does not offer teacher certification. Certification programs are available in other departments at Teachers College.

Master of Arts

The Master of Arts program in sociology and education (with a policy concentration option) provides an introduction to the application of sociological perspectives to contemporary educational policy issues. The program provides coverage of the core principles and methods of sociology as they are applied to policy research and analysis. Students completing this program are prepared to assume positions as general analysts in a variety of organizations devoted to applied educational research, policy making, advocacy, consulting, and direct educational service.

Master of Education

The Master of Education in sociology and education (with a policy concentration option) is an advanced master's degree pursued by students who already possess a master's degree in a substantive area of education or by students without a prior master's degree who want an opportunity to combine study in sociology and education with another area in education. The program involves study of sociological perspectives and methods in the context of contemporary educational policy issues. Current substantive areas that can be combined with study in sociology and policy include evaluation and institutional analysis, human development, technology, curriculum, administration, and foundations. Students completing this program are prepared to assume positions as specialists in a variety of organizations devoted to applied educational research, policy making, advocacy, consulting, and management of educational activities.

Doctor of Philosophy

The Doctor of Philosophy in Education (Ph.D.) program is designed for students with substantial background and interest in the discipline of sociology and its application to education. The Ph.D. is a highly specialized degree with few electives and requires substantial coursework to be done in daytime classes at the Graduate School of Arts and Sciences at Columbia University. This program, therefore, requires full-time study. Students completing this program are prepared to assume positions in college and university programs focused on sociological research in the field of education.

Doctor of Education

The Doctor of Education (Ed.D.) program is designed to provide broad training in the social sciences, education, and educational policy. The program prepares students for positions in teaching, research, and policy through interdisciplinary study grounded in the sociological perspective. All coursework is available at Teachers College, and both part-time and full-time study is possible. Students completing this program are prepared to assume positions in college and university programs in education as well as leadership positions in a variety of organizations devoted to applied educational research, policy making, advocacy, consulting, and management of educational activities.

Degree Summary

Sociology and Education (SOCL)

- Master of Arts (M.A.)*
- Master of Education (Ed.M.)*
- Doctor of Education (Ed.D.)
- Doctor of Philosophy (Ph.D.)

*Policy Studies in Sociology concentration available

For a complete listing of degree requirements, please continue on to this program's "Degrees" section in this document

Degree Requirements

Master of Arts

Program Requirements

Master of Arts Degree in the Program in Sociology and Education – minimum of 33 points

Requirements for the M.A. program *without* the educational policy option:

I. Core Courses (minimum 14 points)

A. Foundational Coursework in Social Analysis of Education (6 points)

EDPS 4021 Sociology of Education (3) **(Required)**

EDPS 4620 Introductory Colloquium in Sociology and Education (3) **(Required)**

B. Education and Social Inequality (minimum 3 points)

EDPS 4022 Sociology of Urban Education (3)

EDPP 5045 Race, Ethnicity and US Educational Policy (3)

EDPS 4024 Social Stratification and Education (3)

EDPS 4032 Gender, Difference and Curriculum (3)

C&T 4032 Gender, Difference and Curriculum (3)

C. Education and Social Organization (minimum 3 points)

EDPS 4029 Sociology of Schools (3)

EDPS 4030 Sociology of Organizations (3)

EDPS 5022 Sociology of Education Systems (3)

EDPA 6030 Institutional Theory: Sociological Perspectives on Institutional Change in Education (3)

EDPS 5005 Sociology of Teaching and Leadership in Education (3)

ITSF 5023 Family as Educator (3)

ITSF 5026 Family and Television (3)

ITSF 5120 Education in Community Settings (3)

HUDK 4031 Sociology of Evaluation (3)

D. Education and Social Change (minimum 3 points)

EDPS 4000 Education and Public Policy (3)

EDPS 4028 Sociology of the Life Course (3)

EDPS 5050 Sociology of Knowledge (3)

HUDK 4011 Sociology of Online Learning (3)

HUDK 5621 Technology and Society (3)

II. Research Methods (9 points)**A. Quantitative Research Methods (3 points)**

EDPA 4002 Data Analysis for Policy & Decision Making I (3), *or*

HUDM 4122 Probability and Statistical Inference (3)

B. Qualitative Research Methods (3 points)

EDPS 5057 Qualitative Methods for Education Policy and Social Analysis (3), *or*

ITSF 5000 Methods of Inquiry: Ethnography and Participant Observation (3), *or*

C&T 5502 Introduction to Qualitative Research in Curriculum and Teaching (3)

C. Advanced Research Methods (3 points)

EDPA 5002 Data Analysis for Policy & Decision Making II (3)

HUDM 5122 Applied Regression Analysis (3)

EDPA 4050 Logic & Design of Research in Educational Policy & Social Analysis (3)

EDPS 5646 Evaluation of Educational and Social Programs (3)

ORL 5522 Evaluation Methods I (3)

HBSS 6100 Program Evaluation (3)

T6416 Program Evaluation in Social Services (at Columbia School of Social Work) (3)

EDPS 5020 Survey Research Methods (3)

III. Electives/Concentration (6-9 points)**IV. Culminating Integrative Experience (0-3 points)**

Master's comprehensive examination (0), *or*

Master's integrative project and EDPS 6021 Master's Integrative Project in Sociology and Education (1 point in the fall and 2 points in the spring, for a total of 3 points)

Additional requirements for the M.A. program *with* the policy concentration:

Choose one course from each of the following four categories:

I. Foundational Studies in Education Policy

EDPS 4000 Education and Public Policy

II. Policy Analysis

EDPA 5645 Craft of Policy Analysis

EDPA 4047 Politics and Public Policy

EDPA 4048 Policy Analysis & Implementation

III. Program Evaluation

EDPS 5646 Evaluation of Educational and Social Programs

ORL 5522 Evaluation Methods I

HBSS 6100 Program Evaluation

T6416 Program Evaluation in Social Services (at Columbia School of Social Work)

IV. Topics in Education and Social Policy

EDPA 4013 Education Policy and the Management of Instruction

EDPA 4017 Topics in Higher Education Law

EDPA 4025 Higher Education Policy

EDPA 4033 Comprehensive Educational Opportunity

EDPA 4046 School Finance Policy and Practice

EDPA 4086 Law and Education: Regulation, Religion, Free Speech and Safety

EDPA 4899 Federal Policy Institute

EDPA 5016 Educational Equality: The Rule of Law

EDPA 5023 Policymaking for Effective High School to College Transition

EDPA 5086 Educational Policymaking and the Courts

EDPA 5880 School Law Institute

EDPA 6013 Early Childhood Development and Education

EDPA 6027 International Perspectives on Early Childhood Policy

EDPE 4057 Economics of Urban and Minority Education

EDPE 4058 Economics of Higher Education

EDPE 4155 Evaluating Educational Privatization and School Choice

EDPP 5041 Politics of Centralization and Decentralization

EDPP 5045 Race, Ethnicity and US Educational Policy

C&T 4615 Young Children, Families and Social Policy

C&T 5050 Education Policy: Prologue to the Future

C&T 5074 Curriculum and Teaching Policy

HBSS 4112 Social Policy and Prevention

ITSF 4060 Latinos in Urban Schools

ITSF 4098 Education Development Policies in China

ITSF 4160 Human Rights Education in Africa: Politics, Policies and Pedagogies

ITSF 5006 International Education Policy Studies

Master of Education (Ed.M., 60 points)

Program Requirements

Ed.M. Degree in the Program in Sociology and Education – minimum of 60 points

Requirements for the Ed.M. program *without* the educational policy option:

I. Core Courses (Minimum of 14 points)

A. Foundational Coursework in Social Analysis of Education

EDPS 4021 Sociology of Education (3) **(Required)**

EDPA 4050 Logic & Design of Research in Educational Policy & Social Analysis (3)

EDPS 4620 Introductory Colloquium in Sociology and Education (2 or 3) **(Required)**

EDPS 5620 Advanced Colloquium in Sociology and Education (3)

B. Education and Social Inequality (minimum 3 points)

EDPS 4022 Sociology of Urban Education (3)

EDPP 5045 Race, Ethnicity and US Educational Policy (3)

EDPS 4024 Social Stratification and Education (3)

EDPS 4032 Gender, Difference and Curriculum (3)

C&T 4032 Gender, Difference and Curriculum (3)

C. Education and Social Organization (minimum 3 points)

EDPS 4029 Sociology of Schools (3)

EDPS 4030 Sociology of Organizations (3)

EDPS 5022 Sociology of Education Systems (3)

EDPA 6030 Institutional Theory: Sociological Perspectives on Institutional Change in Education (3)

EDPS 5005 Sociology of Teaching and Leadership in Education (3)

ITSF 5023 Family as Educator (3)

ITSF 5026 Family and Television (3)

ITSF 5120 Education in Community Settings (3)

HUDK 4031 Sociology of Evaluation (3)

D. Education and Social Change (minimum 3 points)

EDPS 4000 Education and Public Policy (3)

EDPS 4028 Sociology of the Life Course (3)

EDPS 5050 Sociology of Knowledge (3)

HUDK 4011 Sociology of Online Learning (3)

HUDK 5621 Technology and Society (3)

II. Research Methods (12 points)

A. Quantitative Research Methods (6 points)

EDPA 4002 Data Analysis for Policy & Decision Making I (3), *or*

HUDM 4122 Probability and Statistical Inference (3), *and*

EDPA 5002 Data Analysis for Policy & Decision Making II (3), *or*

HU DM 5122 Applied Regression Analysis (3)

B. Qualitative Research Methods (3 points)

EDPS 5057 Qualitative Methods for Education Policy and Social Analysis (3), *or*

ITSF 5000 Methods of Inquiry: Ethnography and Participant Observation (3), *or*

C&T 5502 Introduction to Qualitative Research in Curriculum and Teaching (3)

C. Advanced Research Methods (3 points)

EDPA 4050 Logic & Design of Research in Educational Policy & Social Analysis (3)

EDPS 5646 Evaluation of Educational and Social Programs (3)

ORL 5522 Evaluation Methods I (3)

HBSS 6100 Program Evaluation (3)

T6416 Program Evaluation in Social Services (at Columbia School of Social Work) (3)

EDPS 5020 Survey Research Methods (3)

III. Electives/Concentration (28-31 points)

IV. Culminating Integrative Experience (0-3 points)

Master's comprehensive examination (0), *or*

Master's integrative project and EDPS 6021 Master's Integrative Project in Sociology and Education (1 point in the fall and 2 points in the spring, for a total of 3 points)

Additional requirements for the Ed.M. program *with* the policy concentration:

Choose one course from each of the following four categories:

I. Foundational Studies in Education Policy

EDPS 4000 Education and Public Policy

II. Policy Analysis

EDPA 5645 Craft of Policy Analysis

EDPA 4047 Politics and Public Policy

EDPA 4048 Policy Analysis & Implementation,

III. Program Evaluation

EDPS 5646 Evaluation of Educational and Social Programs

ORL 5522 Evaluation Methods I

HBSS 6100 Program Evaluation

T6416 Program Evaluation in Social Services (at Columbia School of Social Work)

IV. Topics in Education and Social Policy

EDPA 4013 Education Policy and the Management of Instruction

EDPA 4017 Topics in Higher Education Law

EDPA 4025 Higher Education Policy

EDPA 4033 Comprehensive Educational Opportunity

EDPA 4046 School Finance Policy and Practice

EDPA 4086 Law and Education: Regulation, Religion, Free Speech and Safety

EDPA 4899 Federal Policy Institute

EDPA 5016 Educational Equality: The Rule of Law

EDPA 5023 Policymaking for Effective High School to College Transition

EDPA 5086 Educational Policymaking and the Courts

EDPA 5880 School Law Institute

EDPA 6013 Early Childhood Development and Education

EDPA 6027 International Perspectives on Early Childhood Policy

EDPE 4057 Economics of Urban and Minority Education

EDPE 4058 Economics of Higher Education

EDPE 4155 Evaluating Educational Privatization and School Choice

EDPP 5041 Politics of Centralization and Decentralization

EDPP 5045 Race, Ethnicity and US Educational Policy

C&T 4615 Young Children, Families and Social Policy

C&T 5050 Education Policy: Prologue to the Future

C&T 5074 Curriculum and Teaching Policy

HBSS 4112 Social Policy and Prevention

ITSF 4060 Latinos in Urban Schools

ITSF 4098 Education Development Policies in China

ITSF 4160 Human Rights Education in Africa: Politics, Policies and Pedagogies

ITSF 5006 International Education Policy Studies

Doctor of Education (Ed.D., 90 points)

The coursework for the Ed.D., which totals a minimum of 90 points, has seven components: basic social research design and methods, advanced social research design and methods, social theory, core coursework in the sociology of education, seminars and colloquia, coursework in the social context of teaching and learning, and elective courses. All of the required coursework is offered at Teachers College.

Basic social research design and methods (12 points) involves coursework in research design, probability and statistics, applied regression analysis, and qualitative research methods. Courses in advanced social research design and methods (minimum 6 points) build on these basic courses in the quantitative and/or qualitative domains. Social theory courses (3 points) draw from sociology and other social sciences. Ed.D. students also pursue a minimum of 15 points in core classes in the sociology of education and 6 points in seminars and colloquia designed to prepare students for dissertation research. The balance of the 90-point minimum is earned through elective courses selected in collaboration with the student's advisor.

Policy Studies in Sociology Concentration Option:

- EDPS 4000 Education and Public Policy (3)
 - EDPS 5645 Craft of Policy Analysis (3)
 - EDPS 5646 Evaluation of Educational and Social Programs (3)
 - Approved content-driven policy course (3)
-

Doctor of Philosophy (Ph.D., 75 points)

The coursework for the Ph.D., which totals a minimum of 75 points, has seven components: social theory, basic social research design and methods, advanced social research design and methods, foundational coursework in sociology, core coursework in the sociology of education, seminars and colloquia, and elective courses. The required coursework is offered at Teachers College and in the Sociology Department in Columbia's Graduate School of Arts and Sciences. With advisor permission, students may pursue courses in other professional schools at the University or through the Inter-University Doctoral Consortium. (Please refer to the Inter-University Doctoral Consortium section of this bulletin for participating schools.)

Social theory (6 points) includes coursework in classical and contemporary sociological theory.

Basic social research design and methods (12 points) involves coursework in research design, probability and statistics, applied regression analysis, and qualitative research methods. Courses in advanced social research design and methods (minimum 6 points) build on these basic courses in the quantitative and/or qualitative domains. Students also enroll in at least one 3-point course offered by the Graduate School of Arts and Sciences at Columbia or a Consortium institution in each of the areas of social stratification/inequality, social organization, and social change.

Ph.D. students also pursue a minimum of 12 points in core classes in the sociology of education and 6 points in seminars and colloquia designed to prepare students for dissertation research. The balance of the 75-point minimum is earned through elective courses selected in collaboration with the student's advisor.

Application Information

The GRE General Test is required for all doctoral applicants, and doctoral applications are reviewed for fall term only.

Course List

EDPP 5045 RACE, ETHNICITY, AND U.S. EDUCATIONAL POLICY

Examination of the impact of race and ethnicity on the formation and implementation of policies such as desegregation, affirmative action, bilingual education, and choice.

EDPS 4000 EDUCATION AND PUBLIC POLICY

Examination of the federal role in k-12 educational policy over the course of the 20th century and its impact on states and districts.

EDPS 4021 SOCIOLOGY OF EDUCATION

A broad analysis of education using basic sociological concepts, including schools as organizations, socialization, stratification, and ethnic relations.

EDPS 4022 SOCIOLOGY OF URBAN EDUCATION

Analysis of urban schools and districts within the context of urban social and political systems.

EDPS 4024 SOCIAL STRATIFICATION AND EDUCATION

An examination of the link between education and social inequality in Western societies, questioning whether schools are a mechanism of social mobility, enabling poor and disadvantaged children to get ahead in life, or whether schools perpetuate the hardships faced by poor and minority populations. Topics include the importance of quantity and quality of schooling for adult success; the ways in which race/ethnicity, sex, and social class background structure students' educational experiences; the role of tracking and ability grouping within schools; and the link between schooling and the economy.

EDPS 4027 SOCIOLOGY OF CLASSROOMS

An examination of sociological research on the structure and operation of classrooms. Particular attention to the processes of stratification, socialization, legitimation, and social organization.

EDPS 4028 SOCIOLOGY OF THE LIFE COURSE

Sociologists define the life course of individuals by when, and in what order, people assume key social roles, such as becoming an adult or moving from the workforce to retirement. This course looks at the sociology of the life course. Focusing on how historical and societal factors combine with the personal characteristics of individuals to produce unique life course patterns.

EDPS 4029 SOCIOLOGY OF SCHOOLS

An examination of sociological research on the structure and operation of schools. Particular attention to the processes of socialization, stratification, and legitimation as well as social organization and the sociology of school curriculum.

EDPS 4030 SOCIOLOGY OF ORGANIZATIONS

Introduction to concepts and theories in sociological research on organizations, covering internal organizational dynamics, organizations and environments, and organizations as contexts for human action, with a focus on organizations in education.

EDPS 4032 GENDER, DIFFERENCE AND CURRICULUM

A study of the extent and causes of gender inequality in society and the ways in which schools work both to reduce and exacerbate inequality.

EDPS 4620 INTRODUCTORY COLLOQUIUM IN SOCIOLOGY OF EDUCATION

Permission required. Intensive readings and discussions of basic literature in sociology of education, with attention to common issues and research strategies.

EDPS 4903 RESEARCH AND INDEPENDENT STUDY

Permission required.

EDPS 5005 SOCIOLOGY OF TEACHING AND LEADERSHIP IN EDUCATION

This course covers four broad topics of interest to sociologists of education, as well as to other education practitioners, researchers, and policy makers: (1) how the occupations of teaching and leadership are socially organized within schools and school systems; (2) how the work of teaching and leadership in schools and school systems is affected by, and in turn affects, social forces in the larger social environment; (3) the social dynamics of diversity in teaching and leadership; and (4) the impact of teachers and leaders on school outcomes. The course will explore how the knowledge base about the sociology of teaching and leadership has evolved – how the research questions have changed over time, what the body of theory and empirical evidence looks like, including the methods used to study teaching and leadership, and what the cutting-edge knowledge frontiers are.

EDPS 5020 SURVEY RESEARCH METHODS

Relationship between research problem and study design, choice of population, sampling methods, instrument construction, interviewing, data processing, and analysis.

EDPS 5022 SOCIOLOGY OF EDUCATIONAL SYSTEMS

Analysis of local and national education systems through application of sociological perspectives and organization theory, with special attention to problems of equity, effectiveness, and the embeddedness of education systems in their larger contexts.

EDPS 5050 SOCIOLOGY OF KNOWLEDGE

The sociology of knowledge analyzes the process by which "reality" becomes constructed within a social context. With a focus on education and social welfare policies, this class will explore the "reality" of public policies with real material consequences and how this reality has been constructed around a set of assumptions defining the "problems" that need to be solved. This course helps students step back from a focus on "implementing" educational reform and examine instead how such a reform movement became the focus.

EDPS 5057 QUALITATIVE METHODS FOR EDUCATION POLICY AND SOCIAL RESEARCH

This course is designed to assist students in conceptualizing and designing research projects – for Master's Theses or Doctoral Dissertations – that examine, interrogate and evaluate public policies in the fields of education and social welfare through methodological approaches we commonly think of as qualitative. The curriculum emphasizes the benefits and limitations of qualitative methods for studying particular policy issues and programs with the goal of defining when a qualitative approach is most helpful. We will explore qualitative case studies as a research *design* as well as several different data collection *methods* employed by qualitative researchers, including interviews, observations, ethnography, and document analysis. The class also addresses what sort of research questions can best be answered through qualitative data collection, and how qualitative researchers can frame their inquiry in a manner that speaks to public policy debates and issues. Furthermore, the course will require students to appreciate the significance and meaning of a more *contextual approach* to education policy analysis. This course, therefore, fulfills the qualitative research methods requirement for the Sociology and Education Program and other programs across the EPSA Department and College.

EDPS 5620 ADVANCED COLLOQUIUM IN SOCIOLOGY OF EDUCATION

This course is designed to enhance student knowledge of social theory in sociological research. Particular attention is devoted to deductive models of explanation and their use in the construction of theory and its application as a basis for empirical inquiry.

EDPS 5646 EVALUATION OF EDUCATIONAL AND SOCIAL PROGRAMS

An introduction to the evaluation of social and educational programs. Topics include evaluation to inform program conceptualization and design; measuring program implementation; impact assessment, including randomized experiments; cost-effectiveness analysis; and the social and political context of program evaluation.

EDPS 6021 MASTER'S INTEGRATIVE PROJECT IN SOCIOLOGY AND EDUCATION

Students wishing to complete a master's integrative project instead of taking the master's exam will design a study, collect and analyze data and write an extensive paper.

EDPS 6525 SEMINAR IN SOCIOLOGY OF EDUCATION

A seminar for doctoral students to further their professional development and to prepare for doctoral research.

EDPS 6903 RESEARCH AND INDEPENDENT STUDY

Permission required.

EDPS 7503 DISSERTATION SEMINAR

Permission required. Required of doctoral students in the semester following successful completion of certification examinations.

EDPS 8903 DISSERTATION ADVISEMENT

Individual advisement on doctoral dissertations. Fee to equal 3 points at current tuition rate for each term. For requirements, see section in catalog on Registration for Ed.D./Ph.D. degrees.
